AT OUR WEBSITE

EKF is an international electrical solutions brand, specializing in power distribution equipment and automation systems for industrial, commercial, and residential applications, as well as civil infrastructure projects. The company's portfolio extends beyond hardware to include advanced software solutions, featuring the EKF Connect Home smart home ecosystem and the EKF Connect Industry cloud-based IIoT platform.

19 000+ SKUs

20+ countries of operation

Extensive distribution network

Rapid delivery

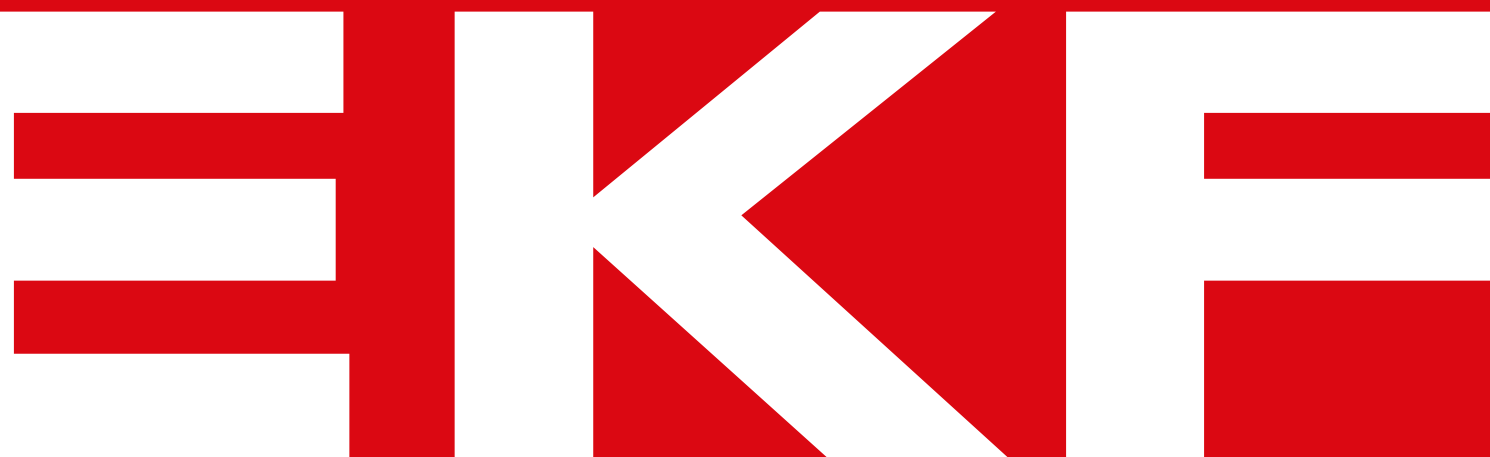

20+ years of experience

In-house Research & Development

Engineering services and project support department

EKF AT A GLANCE

Over 35 000 m² of modern manufacturing facilities in Eastern Europe and China

Extensive network of logistics hubs

Offices in Russia, Belarus, Kazakhstan, Uzbekistan, China, and UAE

Global presence with local support

QUALITY ASSURANCE, RESEARCH AND DEVELOPMENT

ISO 9001:2015 compliant world-class manufacturing facilities, validated by TÜV in 2020

Quality control by an in-house testing lab. Products certified by DEKRA, TÜV and other globally accredited certification companies

EXPERT

Picture	Name	Ratchet cable cutter NC-45BC EXPERT EKF
  	Description	Ratchet cable cutter NC-45BC is designed for cutting stranded copper and aluminium cables with a maximum diameter of 45 mm. Total cable cross-section: 400 mm ²
	Features	• Return spring for easy one hand operation • Unlock latch to open up the cutter at any time • Smaller ratchet gear teeth to decrease cutting effort • Fold down handle lock to reduce storage dimensions
	Weight, g	900
	Length, mm	283
	Delivery scope	Ratchet cable cutter; technical manual, storage and carrying bag
	Item code	nc-45

EXPERT

Picture	Name	Ratchet cable cutter NC-30C EXPERT EKF	
 	Description	Ratchet cable cutter NC-30C with replaceable blades is designed for cutting stranded copper and aluminium cables, including armored aluminium core cable and low-alloy steel rebar. Steel core aluminium cable diameter: 35 mm. Al cable cross-section: 630 mm². Steel rope diameter: 30 mm. Low-alloy steel rebar diameter: 14 mm. Steel chain diameter: 10 mm. Great for cutting ABC.	
	Features	▪ Replaceable blades ▪ Unlock latch to open up the cutter at any time ▪ Smaller ratchet gear teeth to decrease cutting effort ▪ Screw connection of the blades so that they can be retightened ▪ Blades can be re-sharpened	
	Weight, g	3650	
	Length, mm	400	
	Delivery scope	Ratchet cable cutter; technical manual, storage and carrying bag	
	Item code	nc-30	

EXPERT	Picture	Name	Ratchet cable cutter NC-50BAC EXPERT EKF	
	 	Description	Ratchet cable cutter NC-50BAC is designed to cut stranded copper, armored aluminium cable, steel core aluminium cable, steel rope and mild steel rebar. Steel core aluminium cable diameter: 50 mm (cross-section: 1962 mm²). Cu cable cross-section: 400 mm². Al cable cross-section: 400 mm². Mild steel rebar diameter: 16 mm. Steel chain diameter: 12 mm. Great for cutting ABC.	
		Features	• Cuts steel core aluminium cable with cross-section of up to 1440 mm² • Unlock latch to open up the cutter at any time • Smaller ratchet gear teeth to decrease cutting effort • Screw connection of the blades so that they can be retightened • Blades can be re-sharpened	
		Weight, g	3300	
		Length, mm	390	
		Delivery scope	Ratchet cable cutter; technical manual, storage and carrying bag	
Item code	nc-50			

EXPERT	Picture	Name	Ratchet cable cutter NC-70BC EXPERT EKF	
	 	Description	Ratchet cable cutter NC-70BC is designed for cutting stranded copper and aluminium cables, including reinforced armor cables and telephone cables with up to 3600 wire pairs. Cable diameter: 70 mm. Cu cable cross-section: 3×120 mm². Al cable cross-section: 3×150 mm².	
		Features	• Unlock latch to open up the cutter at any time • Highly reliable twist-and-lock telescoping handles for easier use • Refined ratchet tooth shape for improved durability	
		Weight, g	3700	
		Length, mm	580	
		Delivery scope	Ratchet cable cutter; technical manual, storage and carrying bag	
		Item code	nc-70	

EXPERT	Picture	Name	Ratchet cable cutter NC-100BCR EXPERT EKF	
	 	Description	Ratchet cable cutter NC-100BCR is designed for cutting stranded copper and armored copper and aluminium cables. Cable diameter: 100 mm. Cu wire cross-section: 3×300 mm². Al wire cross section: 3×300 mm².	
		Features	• Unlock latch to open up the cutter at any time • Highly reliable twist-and-lock telescoping handles for easier use • Refined ratchet tooth shape for improved durability • Combination cut/chop blade profile enables even cuts, without pulling and straining the wires	
		Weight, g	6650	
		Length, mm	510	
		Delivery scope	Ratchet cable cutter; technical manual, storage and carrying bag	
		Item code	nc-100

CABLE STRIPPING KNIFE WS-19
PROFESSIONAL EKF

Made in
Germany

Quality
Solingen steel

TRANSVERSE
AND
LONGITUDINAL
CUT 4-28 mm

ADJUSTABLE
DEPTH OF CUT + -

WIRE STRIPPING
0,5 to 6 mm²

PROFESSIONAL	Picture	Name	Cable stripping knife WS-19 PROFESSIONAL EKF
		Description	Cable stripping knife WS-19 is designed to quickly and accurately strip outer PVC sheaths from round cables 4 to 28 mm in diameter using the integrated rotating eccentric blade, which enables a circular cross- or longitudinal cut of the cable sheath, as well as stripping of 0,5-6 mm ² individual wires
		Diameter, mm	4-28
		Item code	ws-19
		Wire type

INSULATED CABLE KNIFE WITH GUIDE SHOE 1000V
WS-31 PROFESSIONAL EKF

Made in Germany

Quality Solingen steel

LONGITUDINAL CUT TOWARDS AND FROM THE USER, WITHOUT DAMAGING THE WIRES

PERMITS ANGLING THE KNIFE TO MAKE THE CUT EASIER

USE SAFETY GLOVES TO AVOID INJURY

SMALLER GUIDE SHOE, TESTED TO WITHSTAND UP TO 1600 N OF FORCE

PROFESSIONAL	Picture	Name	Insulated cable knife with guide shoe 1000V WS-31 PROFESSIONAL EKF	
	 	Description	Insulated cable knife with guide shoe 1000V WS-31 is designed to strip outer sheath and insulation from round and flat cables. Double-edged blade, to cut both towards and away from the user	
		Item code	ws-31	
		Wire type	 	

PROFESSIONAL	Picture	Name	Spudger Easy Opener PROFESSIONAL EKF	
		Description	Easy opener is designed to facilitate opening and disassembly of plastic housings and cases	
		Features	- Does not scratch or damage the housing - Flexible glass reinforced polyamide construction	
		Wire type	easy-opener

MULTIMETERS

MULTIMETERS PROFESSIONAL

Model: **MS18C**
Safety Rating: **CAT III 1000V / CAT IV 600V**

Basic functions		
Measurement	Measuring range	Accuracy
Direct current voltage [DCV]	600 mV / 6 V / 60 V / 600 V / 1000 V	±0,5%±3D
Alternating current voltage [ACV]	6 V / 60 V / 600 V / 750 V	±1,0%±10D
Direct current [DCA]	60 µA / 60 mA / 600 mA / 20 A	±1,2%±3D
Alternating current [ACA]	60 mA / 600 mA / 20 A	±1,5%±3D
Electrical resistance [Ω]	600 Ohm / 6 kOhm / 60 kOhm / 600 kOhm / 6 MOhm / 60 MOhm	±1,2%±30D
Capacitance	6 nF / 60 nF / 600 nF / 6 µF / 60 µF / 600 µF / 6 mF / 100 mF	±5,0%±3D
Frequency	9,999 Hz / 99,99 Hz / 999,9 Hz / 9,999 kHz	±1,0%±3D
Temperature [°C]	-20 °C ... 1000 °C	±1,0%±3D
Temperature [°F]	-4 °F ... 1832 °F	±1,0%±3D

Additional functions:
Diode test; transistor test; data hold; non-contact voltage detection; live circuit test; circuit continuity test [buzzer]; display backlight; flashlight; automatic power off.

Delivery scope:
Multimeter - 1 pc.
Set of probes [red/black] - 1 pc.
Battery 1,5 V - 4 pcs.
Thermocouple, type K - 1 pc.
Technical and operation manual - 1 pc.

Picture	Name	Punch down tool TRC-S50 TERACOM EKF
	Description	Designed to trim and insert the wires into insulation-displacement connectors on punch down blocks, patch panels, keystone modules, and surface mount boxes.
	Features	• Termination of 110 (DUAL) and KRONE connections • Built in hook and prior for wire extraction • Scissor mechanism for trimming excess wire during insertion
	Item code	TRC-S50

Picture	Name	Punch down tool TRC-S55 TERACOM EKF
	Description	Designed for insertion and connection of twisted pair wires to IDC terminals on cross panels and patch panels, keystone modules and biscuit jacks in order to build structured cabling systems.
	Features	• Interchangeable dual-sided 110 / KRONE blade • Single-step insertion/trimming action • Adjustable spring force • Spare blade compartment
	Item code	TRC-S55

Picture	Name	Multifunctional coax cable stripper TRC-S10 TERACOM EKF
	Description	Compact multifunctional stripper, designed to strip insulation from different gauges and types of coaxial cable (RG58, RG59, RG6, RG174)
	Features	• Rotating die for selecting appropriate cable type • Adjustable 4-12 mm cut depth • Finger ring for a comfortable circular cut • Cut depth can be adjusted using a hex key (included)
	Item code	TRC-S10

Picture	Name	Multifunctional UTP/STP stripper TRC-S11 TERACOM EKF
	Description	Multifunctional stripper, designed for cutting and removing outer cable sheath and insulation from twisted pair cables (UTP/STP) as well as telephone cable 3,5 to 9,0 mm in diameter
	Features	• Cuts cables and individual twisted pair wires • Two blades for stripping flat cables • Two slots for stripping round cables • Strip depth adjustment screw
	Item code	TRC-S11

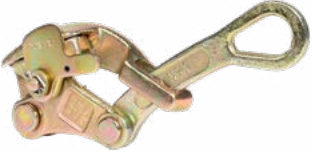

Picture	Name	Crimper TRC-NT10 TERACOM EKF
	Description	Multifunctional crimper for RJ45 (8P8C), RJ12 (6P6C), RJ11 (6P4C), and 6P2C jacks, as well as cutter and stripper of cables for voice and data applications
	Features	• Reliable crimping of RJ45, RJ12, RJ11, 6P2C jacks • Built-in blades for uniform cutting and stripping of individual wires • Ratchet mechanism with safety release • Compatible with AWG 23 to AWG 28 wires • Rubberized non-slip handles
	Item code	TRC-NT10

Picture	Name	Crimper TRC-NT20 TERACOM EKF
	Description	Multifunctional crimper for RJ45 (8P8C), RJ12 (6P6C), and RJ11 (6P4C) jacks, as well as cutter and stripper of cables for voice and data applications
	Features	• Reliable crimping of RJ45, RJ12, RJ11 jacks • Built-in blades for uniform cutting and stripping of individual wires • Ratchet mechanism with safety release • Compatible with AWG 23 to AWG 28 wires • Rubberized non-slip handles
	Item code	TRC-NT20

Picture	Name	Crimper TRC-NT12 TERACOM EKF
	Description	Multifunctional crimper for 8P8C (RJ45), 6P6C (RJ12), 6P4C (RJ11), 6P2C, 4P4C, 4P2C jacks, as well as cutter and stripper of cables for voice and data applications
	Features	• Reliable crimping of RJ45, RJ12, RJ11 6P2C, 4P4C, 4P2C jacks • Built-in blades for uniform cutting and stripping of individual wires • Compatible with AWG 23 to AWG 28 wires • Complimentary manual punch down tool (110 / KRONE)
	Item code	TRC-NT12

EXPERT	Picture	Name	Universal dielectric socket wrench for ABC clamps MK EKF	
		Description	Designed for torquing down shear bolt heads on ABC branching clamps. Suitable for live work	
		Features	• Max. torque - 24 Nm • 1000 V insulation • Wrench size - 10, 13, 17, 22 mm	
		Item code	mk-160-abc	
EXPERT	Picture	Name	Come-along grip CT105.20 (3-22mm) EKF	
		Description	Used to adjust overhead line wires, the lever device converts the pulling force into a gripping force	
		Features	• Cable diameter: 4 - 22 mm • Max. load - 2 tonnes • Does not damage insulation	
		Item code	ct-105.20	
EXPERT	Picture	Name	Swivel CT134 EKF	
		Description	Used to prevent the ABC wire bundle from unwinding when unrolling. The swivel is mounted between the pulling grip and the leader wire rope	
		Features	• Compact dimensions and cylindrical shape prevent the bundle of ABC wires from unrolling • Working load - 30 kN • Max. leader wire rope diameter - 16 mm	
		Item code	ct-134	
EXPERT	Picture	Name	Steel band tensioning and cutting tool INRSL-01 EKF	
		Description	Intended for tightening and cutting 20 mm wide and up to 1 mm thick stainless steel bands	
		Features	• The band is used for the installation of overhead line assemblies as well as the packaging of various loads and goods (stacks of boards, pallets of bricks etc.), installation of road signs, signboards, stretchers, etc. • Automatic clamping device enables the use of different band thicknesses. • High-quality materials of the tool ensure long service life	
		Item code	ct-42.01	
EXPERT	Picture	Name	Steel band tensioning and cutting tool with ratchet mechanism INRSL-02 EKF	
		Description	Designed for tightening and cutting 20 mm wide and up to 1 mm thick steel band	
		Features	• Designed for tensioning the rim band when installing hooks and distant rim on metal, wooden or reinforced concrete supports. • Built-in cutter to trim the excess band • Ratchet mechanism for faster band pull-through • Hardened steel working part	
		Item code	ct-42.02	

EXPERT	Picture	Name	Cable Puller Sheave RM50 EKF	
		Description	Cable Puller Sheave is used to string ABC through straight runs and gentle turns of up to 30°. It is hanged on intermediate supports via an integrated hook	
		Features	• The roller reel is made of glass-reinforced polyamide, ensuring excellent wear resistance and electrical insulation • The roller frame is made of galvanized steel	
		Item code	rm-50	
EXPERT	Picture	Name	Manual ratcheting winch ST-116 (1500 kg) EKF	
		Description	Used for tensioning ABC and fiber-optic cables, the winch is designed for transferring the cable from the stringing roller to anchoring and supporting clamps	
		Features	• Diameter of steel wire rope: 6 mm • Maximum load with block and tackle (1,6 m): 1500 kg • Maximum load without block and tackle (3 m): 750 kg	
		Item code	st-116	
EXPERT	Picture	Name	Splitting wedges ST31 EKF	
		Description	Used to separate the conductor from the ABC bundle during installation of clamps and terminals	
		Features	• Manufactured from high-strength polymer with excellent insulating properties • Comfortable knurled wedge handles prevent slipping when working • No damage to ABC wire insulation • Mechanical deformation limit - 80 kg	
		Item code	st-31	
EXPERT	Picture	Name	Wire brush, plastic handle, 5 rows EKF	
		Description	Intended for cleaning off or removing rust and paint from steel surfaces	
		Features	• Steel wire brush for optimal function, durability, and longer service life • Angled plastic handle for more comfortable use	
		Item code	wbs-pl-5-exp	
EXPERT	Picture	Name	Cable tie gun tensioning and cutting tool TTC210 EKF	
		Description	Designed for tensioning and cutting non-reusable cable ties 2,4 - 9,0 mm wide	
		Features	• Significantly reduces installation time • Ensures the required tensioning force	
		Item code	ttc-210

PERSONAL
PROTECTIVE
EQUIPMENT

PERSONAL PROTECTIVE EQUIPMENT

MASTER	Picture	Name	PVC DOT
		Description	Knitted cotton gloves made of blended yarn. Seamless knit technology makes them very comfortable to wear. PVC dot pattern provides high abrasion resistance and excellent palm protection
		Features	• Knit grade: 10 • Base composition: 60% cotton, 40% polyester • Coating composition: 100% PVC • Coating coverage: ½ (palm and fingertips) • PVC coating type: dot pattern • Two sizes [9, 10]
		Item code	pe10ct-9-mas, pe10ct-10-mas

MASTER	Picture	Name	PROTECTION safety work gloves with a single layer latex coating
		Description	Universal cotton safety gloves with a single layer natural latex coating. The latex coating prevents the ingress of moisture and dirt and ensures high abrasion resistance
		Features	• Knit grade: 13 • Base composition: 60% cotton, 40% polyester • Coating composition: 100% PVC • Coating coverage: ½ (palm and fingertips) • Coating type: wrinkled, single coated • Two sizes [9, 10]
		Item code	pe13it-9-mas, pe13it-10-mas

EXPERT	Picture	Name	PROFI wrinkled latex coated work gloves
		Description	All-purpose polyester-based wrinkled latex palm gloves with nylon liner. Wrinkled latex palm coating enables excellent grip on slippery surfaces. Great choice for working with glass, sharp or cutting materials
		Features	• Knit grade: 15 • Base composition: 100% polyester • Coating composition: 100% natural latex • Coating coverage: ½ (palm and fingertips) • Coating type: wrinkled, single coated • Two sizes [9, 10]
		Item code	pe15nl-proxima, pe15nl-10-proxima

EXPERT	Picture	Name	PROFI Touch for finishing work
		Description	Intended for delicate finishing work like wallpaper hanging, painting, furniture assembly, and other decoration jobs, these fine lint-free gloves offer excellent sensitivity and do not mar finished surfaces
		Features	• Knit grade: 15 • Base composition: 95% polyamide + 5% spandex • Coating composition: 100% water-based polyurethane • Three sizes [7, 8, 9]
		Item code	pe15pm-7-exp, pe15pm-8-exp, pe15pm-9-exp

PROFESSIONAL	Picture	Name	WINTER PVC DOT thermal work gloves
		Description	All-purpose gloves for low-temperature applications. The gloves are fleece-lined, keeping you warm and providing maximum comfort. PVC dots provide excellent sensitivity and grip. Designed for moderate mechanical load
		Features	• Knit grade: 7 • Base composition: 100% acrylic wool • Coating composition: 100% PVC • Coating coverage: ½ (palm and fingertips) • Coating type: dot pattern • Two sizes [9, 10]
		Item code	pe7ac-9-pro, pe7ac-10-pro

PROFESSIONAL	Picture	Name	PROFI WINTER wrinkled latex coated thermal work gloves
		Description	All-purpose gloves for low-temperature applications. The gloves are fleece-lined inside, keeping you warm and providing maximum comfort. Wrinkled latex palm coating enables secure grip on slippery surfaces. Great choice for working with glass, sharp or cutting materials. Improved thumb protection with full latex coating. Designed for high mechanical loads
		Features	• Knit grade: 10 • Base composition: 100% acrylic wool • Coating composition: 100% natural latex • Coating type: wrinkled, single coated • Coating coverage: ½ (palm and fingertips) • Base colour: safety orange, safety green • Coating colours: blue, black
		Item code	pe10lt-9-pro, pe10lt-10-pro

TOOL BAGS,
BACKPACKS,
TOOL BELTS

PROFESSIONAL		Name	Universal electrician tool bag C-03 PROFESSIONAL EKF
		Dimensions	330×260×200 mm
		Description	Universal electrician tool bag C-03 is designed for tool storage and carrying
		Features	• 100% durable 1680D Oxford polyester • Rubberized bottom to protect contents from oil and moisture • Two carrying handles for improved carry comfort • Special pocket for the multimeter • Extra stitching in load-bearing areas • Roomy interior with internal pockets for secure carry • Reinforced carrying handles capable of supporting heavy tool load with fabric wraparound to reduce hand pressure (up to 20 kg)
		Item code	C-03

PROFESSIONAL		Name	Universal electrician tool bag C-01 PROFESSIONAL EKF
		Dimensions	450×330×380 mm
		Description	Universal electrician tool bag C-01 is designed for tool storage and carrying
		Features	• 100% durable 1680D Oxford polyester • Universal strap with soft anti-slip shoulder pad • Extra stitching in load-bearing areas. Increased tool capacity • Reinforced zipper with durable links • External pockets for safe carry of multimeter and digital clamp meter • Roomy and well thought-out interior for every type of tool • Rigid oil- and water-resistant bottom
		Item code	C-01

PROFESSIONAL		Name	Tool organizer C-10 PROFESSIONAL EKF
		Dimensions	310×60×420 mm
		Description	Tool Organizer C-10 is a convenient backpack insert that can be used to store frequently accessed tools
		Features	• Improves the capacity of the tool bag or backpack • Neatly organizes most frequently used tools, keeping them within hand's reach • 100% durable 1680D Oxford polyester • Pockets for screwdrivers and pliers. All the essentials at the fingertips • Additional stitching in the load-bearing areas • At 31×42 cm the organizer is compatible with C-07 and C-08 backpacks, as well as C-01 tool bag and C-02 messenger bag
		Item code	C-10

PROFESSIONAL		Name	Service engineer's messenger bag C-02 PROFESSIONAL EKF
		Dimensions	400×170×300 mm
		Description	Service engineer's messenger bag is designed to carry and store tools, documents, as well as a laptop
		Features	• Dedicated compartment for a laptop, electronics, or a change of clothes • Reinforced zipper with durable links • Reinforced stitching in load-bearing areas • Universal strap with soft anti-slip shoulder pad • Spacious interior with tool pockets • Large outer pocket with a flap for documents
		Item code	C-02

PROFESSIONAL		Name	Belt tool bag with shoulder strap and cover flap C-14 PROFESSIONAL EKF
		Dimensions	250×150×300 mm
		Description	Tool bag C-14 is designed for electrical installation and routine maintenance work
		Features	• Hard-wearing EVA pouches. Hold their shape well. Perfect for tools and hardware • Deep pockets, positioned at different levels, improve the user's mobility • Universal strap with soft anti-slip shoulder pad • The strap can also be used as a belt, extending the capabilities of the bag • Well thought interior layout - all the tools are at your fingertips • Cover to prevent the tools from falling out • Can be carried on a toolbelt or used as an accessory for C-15 and C-12 • Carry handle
		Item code	C-14

PROFESSIONAL		Name	Tool bag with foldable stool C-06 PROFESSIONAL EKF
		Dimensions	360×340×400 mm
		Description	Tool bag with foldable stool C-06 is used for storing and carrying tools and as a convenient place to sit during installation of wiring accessories
		Features	• 100% durable 1680D Oxford polyester • Reinforced steel frame for improved safety • The tool bag can be detached and used independently • Universal strap with soft anti-slip shoulder pad • Ideal for installing sockets and parapet channels
		Item code	C-06

Picture	Name	Service engineer's backpack with retroreflective strips C-08 PROFESSIONAL EKF
	Dimensions	280×120×410 mm
	Description	Service engineer's backpack with retroreflective strips C-08 is designed to carry and store tools documents, laptop
	Features	• Dedicated compartment for a laptop, electronics, or a change of clothes • Reinforced zipper with durable links • Reinforced stitching in load-bearing areas • Padded back and shoulder straps for greater comfort • Spacious interior with tool pockets • Large outer pocket for documents and papers
Item code		C-08

Picture	Name	Heavy-duty tool backpack C-07 PROFESSIONAL EKF
	Dimensions	400×150×450 mm
	Description	Heavy-duty tool backpack C-07 is designed to store and carry tools
	Features	• 100% durable 1680D Oxford polyester • Padded back and shoulder straps for greater comfort • Rubberized bottom to protect contents from oil and moisture • Two carrying handles for improved hand carry comfort • Retroreflective strips for improved safety • Special pocket for the multimeter • Reinforced zipper with durable links • Extra stitching in load-bearing areas • Roomy interior with internal pockets for secure tool carry • Reinforced carrying handles, capable of supporting heavy tool weight with fabric wraparound to reduce hand pressure (up to 20 kg)
Item code		C-07

Picture	Name	Three-pouch tool belt C-12 PROFESSIONAL EKF
	Dimensions	1300 mm
	Description	Three-pouch tool belt C-12 is a convenient solution for general construction and electrical work
	Features	• Durable wide belt with Velcro fastening and padding to reduce pressure on the lumbar area • Hard-wearing EVA pouches. Hold their shape well. Perfect for tools and hardware • Hammer hanger, tape measure hanger • Reinforced metal suspender loops • Pouch pockets positioned at different levels for ease of use • Durable reinforced double grommet belt • Deep pouches to securely hold the tools • Additional stitching in the load-bearing areas
Item code		C-12

Picture	Name	Tool belt with harness and 3 pouches C-15 PROFESSIONAL EKF
	Dimensions	1300 mm
	Description	Three-pouch tool belt with harness C-15 is an excellent solution for general construction and electrical work
	Features	• 100% durable 1680D Oxford polyester • Hard-wearing EVA pouches. Hold their shape well. Perfect for tools and hardware • Three-point harness for better weight distribution and reduced fatigue • Bit driver holster with dedicated core bit holder • Wide belt with Velcro fastening and padded inserts to reduce pressure on the lumbar area • Durable reinforced double grommet belt • Pouches and harness compatible with C-12 tool belt bag • Additional stitching in the load-bearing area
Item code		C-15

PROFESSIONAL	Picture	Name	Safety vest with reflective strips S-22 PROFESSIONAL EKF
		Description	Adjustable safety vest with reflective strips and tool pockets S-22 is a convenient solution for tool carry during general construction and electrical work
		Features	• 100% durable 1680D Oxford polyester • Hard-wearing EVA pouches. Hold their shape well. Perfect for tools and hardware • The back of the vest is made of denim-like durable natural cotton material. It's much easier to work in this vest, especially in hot weather • Deep pockets and pouches positioned at different levels, improve the user's mobility • Integrated vest carry and safety loop • Customizable at waist and shoulders. Can be worn over warm clothing • Additional stitching in the load-bearing areas • Reflective strip for improved safety • Tape measure hanger. Insulation tape hanger. Wire bundle hanger • Transparent badge pocket
		Item code	C-22
